### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Morley C. Tobey, Jr., (Reg. No. 43,955) on April 14, 2003.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

Figures amended as marked red in the figures 2-9, including cross hatching patterns to represent the material used for the part as shown on page 600-114/115, MPEP 608.02.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance:

A wiring board structure with a conductive layer having multiple openings, wherein the centroids of two of the open areas define one axis of Cartesian coordinate system, and conductive traces on the other layer, with an insulating layer in between, are laid out in such way that, at least one of the traces is oriented at other than the

orthogonal angle to each axis of the coordinate system, wherein the oriented trace is longer than the spatial extension between two of the open areas and the projection of the oriented conducting trace on the layer with the opening, lies external to the open areas.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
